

The Alameda County Community Food Bank invites ***YOU*** to help President Obama accomplish his goal to end childhood hunger by 2015.

# 2015 Trays for Childhood Hunger

On Martin Luther King Jr. Day 2010 the Food Bank will send hand-written messages on 2015 biodegradable trays to our Congress members sharing the importance of child nutrition programs.

*The child nutrition programs are critical to ending childhood hunger.*

The personalized trays will carry messages supporting access to good nutrition to Washington DC as Congress determines how to support school meals, WIC, afterschool snack programs, and summer lunch.

*It is only with **your help** that we will convince Congress to invest in better nutrition for our children.*

*If you would like a stack of trays or more information contact Betsy Edwards
